

**WEEKLY VERBAL AGITATION TRACKING FORM (Week beginning \_\_\_\_\_)**

	SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
<b>Overall verbal agitation severity for entire day (0-10)*</b>							
<b>How many episodes occurred that day?</b>							
<b>How long did episodes last?</b>							
<b>Did the verbal aggression occur in response to someone else's actions/speech, or was it usually unprovoked?</b>							
<b>If verbal agitation occurred in response to an interpersonal interaction, in what situation did it occur (e.g., grooming, eating, toileting, being redirected from to leaving residence)?</b>							
<b>How did verbal aggression resolve (e.g., distraction, medication, other)?</b>							
<b>EXTRA MEDICATIONS USED (specify doses and times given)</b>							
<b>MEDICATION SIDE EFFECTS</b>							

\*RATING DAILY OVERALL AGITATION SEVERITY: 0-1=minimal agitation over course of day; 2-4= mild agitation (up to a few fairly brief episodes easily managed with distraction/redirection or spontaneously resolved; 5-7= moderate agitation (one or more episodes where significant effort needed to redirect/distract but medications not needed, or low-dose medication used once), 8-10 severe agitation (medication needed to settle down agitation one or more times)
